[18:13] Charge Shungite in moonlight? No. it's a 2-million-year-old rock. It did not come from Earth, in fact, it came from a meteor crater lake in Corellia. It has the formation of carbons never seen anywhere on Earth also carbon is dated to 2 billion years older than years.

<https://www.youtube.com/watch?v=Dn3lu0rRWnc> (Accessed 27 October 2024)

Vibrational Energy [0:45] "...you don't want to put crystals together side by side because they all emit a unique frequency...crystals emit one frequency so to put a bunch of them

together just sounds like a clashing of a whole bunch of guitars out of tune, that would be really really disturbing vibrational energy.”.

Testing Shungite [2:18] “...shungite...is completely conducive to an electrical current...”. You can use a multimeter as a test tool.

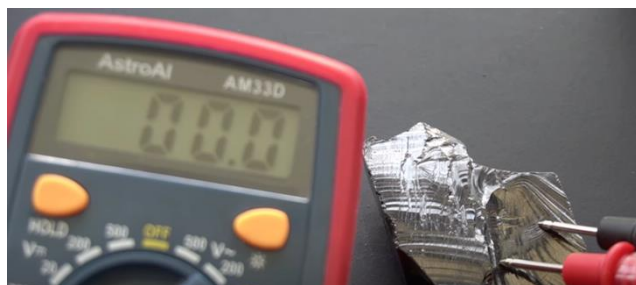

Dantians/Chakras (Hindu):

Chakra	Frequency in Hz	Equivalent Note
Crown	216, 432, or 864	A
3 rd Eye	144, 288, or 576	D
Throat	192, 384, or 768	G
Heart	128, 256, or 512	C
Solar Plexus	182, 364, or 728	F [#]
Sacral	303, 606, or 1212	E ^b
Root	228, 456, or 912	B ^b

*Very powerful on your third eye chakra.

What's a Chakra? [6:44] “...all they are is their high conductivity low resistance points on the body where electrical energy can flow and acupunctures have known about this for years which is why those are connected to meridians.”.

*Shungite is conductive, showing a testing result of 0. A positive reading of real shungite.
